

iVisual Digital Display

Photo selections of recent jobs
2 December 2015

iVisual cloud base software is extremely powerful yet simple to manage and use. It is packed with amazing and exclusive features, special effects, maps, weather, time, currency convertor, movies, animation and many other functions that are design to make your life easy and to attract and entice both the vendor and buyers.

iVisual Giant display at Alice Springs Airport

in Sep 2014 iVisual was asked to send a proposal design for a new digital display at the Virgin terminal, Alice Spring Airport. Our design, for a giant 3sqm digital display, won and in May 2015 the new terminal opened with a massive iVisual digital display
